

Meet Your Family Medicine Physician

Mitch Hammel, MD

I try and set realistic expectations for all my patients in my care. By doing this, I help them define their goals for care and then we are able to work towards those goals together. After patients see me, I want them to know that I care about their overall health and well being. Through goals, our relationship can help them live long, happy lives.

Why I chose Healthcare

"Since I was a child, I always knew that I wanted to be a physician. My PCP, Dr. Messmore, growing up was a very kind and caring man who would try to take care of every aspect of his patient's care. He once met me at his office at 8pm to suture my forehead from a swing accident. You just had to call and he would see you. He was always there. This is the type of physician I want to strive to be in my career."

MD

University of Illinois College of Medicine, Rockford, IL

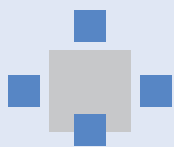

Residency

University of Illinois College of Medicine, Peoria, IL

Department of Family Medicine

In the Department of Family Medicine, Dr. Hammel diagnoses and treats non-surgical illnesses or disorders from infancy through adulthood and promotes wellness care for patients of all ages.

Dr. Hammel is married to wife Casey and they have a daughter, Elsie. They enjoy being outside, going on hikes, digging in the garden. Dr. Hammel enjoys flyfishing, which includes tying his own flies. Their ideal vacation would be to travel to a remote cabin and hike every day.

CHRISTIE CLINIC

We listen. We care.
