

Meet Your Family Medicine Provider

Khalid Waheed, MD

Providing the best possible care to my patients in a caring, compassionate and respectful manner is what I strive for everyday. I want my patients to feel valued and know that they are not just a number for me. I want my patients to trust me with their care and understand that I will always keep their best interests in mind. I also want my patients to feel empowered and have a say when it comes to making decisions.

Why I Became a Medical Provider

"My decision to become a doctor was rooted in my goal of understanding the basis of disease and helping others do the same. Medicine to me is a passion, a means to fulfill my ambition of serving humanity. My late father and my mother, who I have seen struggle with Type 1 diabetes since I was a child, have been my greatest inspiration in becoming a doctor."

Professional Memberships

American Medical Association, American Academy of Family Physicians, Illinois Academy of Family Physicians

Department of Family Medicine

Christie Clinic's Department of Family Medicine offers a wide range of acute and chronic care services to family members of all ages, from newborns to geriatric patients. Care is centered on family and as a provider in the Department of Family Medicine, Dr. Waheed develops long-term relationships built on trust and respect. These relationships allow tailored care and treatment plans to each individual patient to better manage and diagnose potential health concerns and issues such as diabetes, hypertension, obesity, emotional wellbeing and others.

Patients tell me that I'm very friendly and have a good sense of humor. In my free time, I love to spend time with my wife and three children, playing with my kids, and watching basketball and cricket. I also love to read books, especially detective novels; Arthur Conan Doyle's Sherlock Holmes' books are my favorite.

CHRISTIE CLINIC

We listen. We care.
